# Mobile Dairy Unit

**Initiator(s)**

Fernando García-Dory

**Description**

An instructive, mobile unit that tours the country showing the process of sourcing dairy products and how they are then processed into cheese and other dairy products.

**Goals**

To teach people to make their own cheese to provide a herd of goats and cheese-making facilities on a short term basis.

**Beneficial outcomes**

Cheese understanding: the science of cheese and fermented cultures social interaction.  
Small business development.  
Understanding of where food comes from.
